Turnover Ball Model Chart in Fit guide

Pop up 2

You're going to love this newly redesigned PopUp Hitch. Smoother acting and trouble free. We've made the best hitch even better. So simple you'll wonder why you didn't think of it. One pull of the handle to raise the ball is all it will take to convince you that this is the hitch you want. Try it and see.

We've replaced the cam mechanism with a simple yet strong and reliable slide to raise and lower the ball. Simply pull the rod to raise the ball and push to lower it.

When in the fully raised position, the ball is locked in place assuring that it can't fall down by it's self. To lower the ball, push rod firmly with the heel of your hand to over-ride the latch.

The PopUp2 is now available for the popular Toyota Tundra as well as Chevy, Ford and Dodge.

Raise and Lower the Ball From the Wheelwell of Your Truck

- Raise or hide ball instantly with rod in rear wheel well of truck.
- 30,000 lbs. Gross Trailer Weight.
- 7,500 lbs. Gross Tongue Weight
- 2-5/16" ball..
- Hitch ball fits in 3" hole in bed. None smaller.
- Bolts in place using existing frame holes.
- Includes spring loaded safety chain anchors.
- Installs quickly without loosening bed.
- No welding or fabrication.
- Grade 5 and 8 installation hardware provided..
- 100% complete.

PART NO	Description
PU-RV1	Fifth Wheel Gooseneck Adapter. Fitted with 2 5/16" coupler. 5" Offset, 4" Height adjustment in 1" increments. 24K gross trailer weight; 6K tongue weight includes coupler, release cables and hardware.
PU-RV2	Fifth Wheel Gooseneck Adapter. Fitted with 2 5/16" adapter, 9" Offset, 24K gross trailer weight; 6K tongue weight includes coupler, release cables and hardware.
PU-RV3	Fifth Wheel Gooseneck Adapter with No Offset. The PopUp RV3 has all the features and towing advantages of the RV1 and RV2 with NO OFFSET! The RV3 locates the king-pin directly over the gooseneck hitch ball for truck and trailer combinations that do not require the added trailer swing and maneuverability a 5" or 9" offset provides. Fits standard king-pin box; 4" height adjustment in 1" increments; Powder coated finish; Easy bolt-on installation; 24K gross trailer weight; 6K gross tongue weight.
PU-RV4	Fifth Wheel Gooseneck Adapter with Fixed 7.5" height. and 9" Offset. The PopUp RV4 will let you pull your RV trailer with a 2 5/16" gooseneck ball even if your tow vehicle bed is tall, as is usually the case with flat beds. The RV4 has a fixed height of only 7-1/2" and provides a full 9" of rearward offset for increased trailer swing and maneuverability. Easy bolt-on installation; 24K Gross Trailer Weight; 6K Gross Tongue Weight.
PU-RV5	Easily add 10": more clearance between truck and trailer; more trailer swing easier maneuvering; Fits standard king pin box; One hour bolt-on installation; White powder coated finish; 24K gross trailer weight; 6K gross tongue weight.

CC1 - Up to 4,000 lbs. Gross Tongue Weight.
 CC2 - Up to 8,000 lbs. Gross Tongue Weight.

FIFTH WHEEL HITCHES

ROUND TUBE SLIDER

Designed for short bed trucks and extended cab short bed pickups to provide additional turning clearance and to prevent damage to truck and trailer in tight locations at low speeds. Fits both 15K and 16K Select Series & 18K Select Plus Fifth Wheel Hitches.

50008

Requires #30035 universal base rail kit (sold separately)

- Designed for Pro Series™, 15K, and 16K Select Series models including Select Plus
- 12" travel front to back
- Round tube design allows for smoother operation
- Operation from either side of unit
- Angled steel rollers reduces binding
- Operates even when vehicle not in straight line
- Operation up to 45° angle
- Lock pin for additional security
- Rubber grip handle for comfortable operation
- Tapered holes for easier pull pin engagement
- 3" wide attachment allows for use with other 5th wheel hitches
- Uses existing base rail design
- For use with short box pick-ups. Prevents damage to cab when spotting trailer. Rails and installation kit sold separately, see below.
- Minimum 13" extended trailer pin box recommended

Part No	Description	Price
50008	Slider Round Tube Kit for 15K & 16K Select Series, plus 18K Select Plus™ 5th Wheel Hitches	

Rails And Installation Kit Must Be Ordered Separately (#30035).

Note: Check clearance between king pin bed and tailgate before moving to maneuvering position

Note: Will not fit trucks with beds shorter than 6' in length or Flareside / Stepside

SQUARE TUBE SLIDER

Designed for short bed trucks and extended cab short bed pickups to provide additional turning clearance and to prevent damage to truck when spotting trailer. Fits Pro Series™, 15K and 16K Select Series & 18K Select Plus Fifth Wheel Hitches.

30048

Requires #30035 universal base rail kit (sold separately)

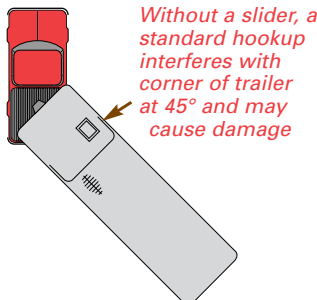

- 6 roller design
- 10" travel fore-and-aft
- Works with full size and downsize mini trucks
- Fully adjustable with trailer attached
- Minimum 13" extended trailer pin box recommended
- Requires #30035 Universal Base Rail Kit (sold separately)

Part No	Description	Price
30048	Slider Square Tube Kit for 15K & 16K Select Series, plus 18K Select Plus™ 5th Wheel Hitches	

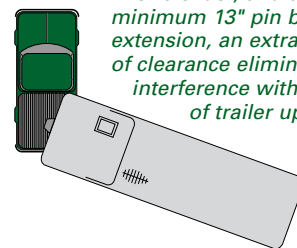

Rails And Installation Kit Must Be Ordered Separately (#30035).

Note: Check clearance between king pin bed and tailgate before moving to maneuvering position

Note: Will not fit trucks with beds shorter than 6' in length or Flareside / Stepside

Without a slider, a standard hookup interferes with corner of trailer at 45° and may cause damage

With a slider, and a minimum 13" pin box extension, an extra 10" of clearance eliminates interference with corner of trailer up to 80°

* = Special Order/Non-stock

C

30079

REMOTE SLIDER ACTUATOR FOR KWIK-SLIDE™

- Adds convenience for fifth wheel users! No more getting out of the cab to lock & unlock the Kwik-Slide™ slider. Allows complete slider operation from the driver's seat!
- Lighted indicators on the remote show the driver when fifth wheel is ready for safe maneuvering or towing:
 - Blue = Locked for Maneuver
 - Yellow = Maneuvering
 - Green = Travel position
- Warning "signal" to alert bystanders of trailer movement
- Fits all Kwik-Slide fifth wheel slider units!
- 5 year limited warranty

Part No.	Description
30079	Remote Slider Actuator for Kwik-Slide™ Slider

30K FIFTH WHEEL LOW PROFILE HITCH

- Low profile design can be vertically adjusted 3" to permit level trailering (9-1/2" to 12-1/2") above vehicle deck
- Side-tilt design reduces vehicle frame stress, creating a smoother, more comfortable ride and making hook-up and un-hook much easier
- Specially designed and engineered for the serious tower, primarily on medium-duty conversion trucks
- Actuating handle is more easily accessible than most fifth wheels, making hook-up quicker and more convenient
- 30,000 lbs. capacity; 7,500 lbs. pin weight capacity
- 5 year limited warranty

Part No.	Description
30054	30K Fifth Wheel Complete Base rails not used with this model. Mounts directly to medium-duty truck

Note: Will not fit trucks with beds shorter than 6' in length unless used with Sidewinder, see page 318. Will not fit trucks with flareside/ stepside.

Non Removable

Blue Ox SwayPro

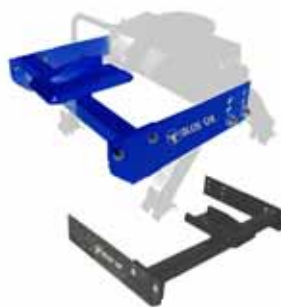

BXW1000 Sway Pro 1000 Lb
BXW1500 Sway Pro 1500 Lb

Features:

- Easy hook up & disconnect. Built-in sway control. Snap in spring bar design. Can not fall out.
- Four separate points of adjustable contact to control trailer sway.
- Durable gold zinc finish won't chip, rust, or corrode.
- Easy to operate bracket lock that automatically secures the tongue bracket into place and just as easily releases it with the simple push of a lock pin.
- Simple precise weight distribution adjustment.
- Tongue brackets utilize sway control loops which limit side-to-side trailer sway, but still provide for free movement during turns.
- Available for four tongue weights: **BXW0550** (550 lbs), ***BXW0750** (750 lbs), and **BXW1000** (1000 lbs) **BXW1500** (1500 lbs)

Safe, Worry Free Travel With The Bedsaver Fifth Wheel Safety System

Others available by special order

Dropping your fifth wheel is more common - and dangerous - than you might think. Just ask some of your RV friends that have experienced it.

You can put that worry to rest with the Bedsaver. This inexpensive, hassle-free safety device is a "must have" for every fifth wheel puller. With Bedsaver™, you can forget about dropping your fifth wheel - and forget about the potential danger, damage, expense, and embarrassment! The Bedsaver is a sound investment with great returns for all fifth wheel pullers.

- No moving parts. Bedsaver is always ready and requires little maintenance after installation
- Easy to install, requiring no drilling or hitch modification
- Hardware and instructions are included
- Trailer loads and unloads normally
- Black powder coated finish matches most hitches, blending so well it's difficult to tell it's even there
- Catches the pin and holds it SAFE AND SECURE

AVAILABLE BY SPECIAL ORDER ONLY

Pin Lock™ Fifth Wheel Safety System

Pin Lock™ adds an extra measure of safety to your fifth wheel. This simple device utilizes a counterweight door that folds down when you're loading the flaps up to lock the pin in place. This prevents the pin from accidentally disengaging. The only way to remove the pin is to raise it over the pin lock. Pin Lock™ is easy to install. Simply remove the front and back bolts that secure the top plate and replace the top plate with the Pin Lock™.

TUFF TOW SWAY CONTROL BALL MOUNTS & SHANKS

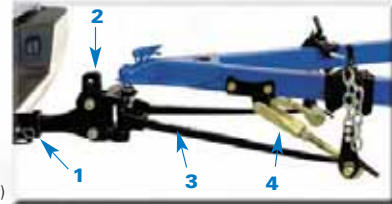

WEIGHT-DISTRIBUTING SYSTEMS

Add a Weight-Distributing System to provide a more level ride, greater steering and brake control.

THE DRAW-TITE DIFFERENCES are in construction materials, welding, manufacturing processes and hook-up. Adjustment is simple because of the easy-to-operate snap-up brackets that allow spring bar tension to be adjusted by changing links in the support chains. Rather than merely supporting the trailer tongue weight (TW), weight-distributing hitches apply leverage between the towing vehicle and trailer causing the TW to be carried by all axles of the tow vehicle and trailer.

A Draw-Tite Weight-Distributing Hitch System is composed of four major elements:

1. the hitch receiver,
2. the ball mount,
3. the spring bar assembly and,
4. the sway control (see below)

They work in unison to provide complete towing system compatibility.

WITHOUT WEIGHT-DISTRIBUTING HITCH

WITH WEIGHT-DISTRIBUTION

Dual Cam HP™ SWAY CONTROL

DRAW-TITE'S PREMIER SWAY CONTROL - Unlike the friction sway control, the Dual Cam HP™ has the ability to forestall sway from the start in addition to resisting sway once it's begun. Works only when needed and allows free and easy vehicle/trailer interaction. Installs on the trailer and therefore doesn't require adjustment every time the tow vehicle and trailer are hooked up, unless ball mount height angle or the number of working chain links are changed.

- Integrated cams into the spring bars reduce noise
- No U-bolts to conflict with bottle racks or other A-frame mounted items
- Specific attachment reference points provided
- Simple, easy adjustment of centerline
- Fits more applications
- Improved installation times
- Years of extensive field testing

STRAIT-LINE™ SYSTEM

This is the ultimate hitch in detail and by design. No other hitch gives the driver the control this one does at a reasonable price. The WD system consists of our patented Dual Cam High-Performance Sway Control and our High-Performance Weight-Distributing System in one easy-to-install package.

This WD system literally forces the trailer to stay in a straight line behind the tow vehicle. Sway is controlled by the Dual Cam High-Performance System. The stronger the sway force, the more the Dual Cam System works to stop it.

This system combines weight-distributing with the best proven pro-active sway control system available in a newly-designed, easy-to-install kit.

- Includes Dual Cam High Performance Sway Control and High Performance Weight Distributing Systems
- Simple installation and adjustment
- Fully automatic and self-centering
- Hooking up spring bars automatically hooks up sway control
- Reduced noise
- No U-bolts to conflict with bottle racks or other A-Frame mount items
- Specific attachment reference points provided
- Easy adjustment of centerline
- No need to relocate items on top of A-frame to install Dual Cam High-Performance Sway Control

SINGLE SPRING BAR WEIGHT-DISTRIBUTING HITCH KITS

This Light-Duty Weight-Distributing system is especially designed for use with lighter weight trailers and pop-up campers. The center mount single bar is contoured to avoid interference with center mounted jacks. Easy to set up and use. The lift mechanism is designed to prevent interference with gas bottles or battery trays. Works with any 2" receiver.

A-Frame trailers must have adequate mounting space for the cross-brace bracket. The cross-brace bracket must be mounted 18" to 26" rearward of the center of the coupler ball receptacle. Make sure the trailer is clear of any gas bottles, battery trays, or other obstructions within this area. See example below.

The integrated lifter bar feature provides the advantage of allowing a single person to operate this light duty kit from one side of the trailer. This system works with both side and center mounted tongue jacks. The sway control platform allows you to use a friction sway control on either side of the trailer.

- Bolt-On head with Weight-Distributing Shank
- Models for both A-Frame and Pole-Tongue trailers
- Rated up to 4,000/400 lbs. Weight-distributing
- Innovative single spring bar design
- Integral sway control platform
- Assembly hardware, and chains included
- Black powder coat finish

3360	1	Pole tongue Adapter and Fasteners	

NOTE: Not for use with 3205 light duty weight-distributing hitch

DRAW-TITE TRUNNION BAR WEIGHT-DISTRIBUTING HITCH SYSTEMS

Evolving to meet the changing requirements of the towing market, Draw-Tite Weight-Distributing Hitch Systems provide a softer ride and distribute load forces more evenly than ever before. The carrying capacity of these hitches is rated higher than most others in the marketplace, allowing consumers to tow heavy loads with confidence.

- Forged, bolt-together Trunnion style head
- Rated up to 6,000/600 lbs. weight carrying and 12,000/1,200 lbs. weight-distributing
- Available in 600, 800, and 1,200 lbs. tongue weight models
- 30" spring bars standard
- Integral dual platform supports left hand and dual sway control applications
- Elevated hitch ball platform provides superior coupler clearance
- Lift brackets designed to provide increased frame clearance
- Assembly hardware, and chains included

**PRO SERIES SC
(WEIGHT DIST. W/ BUILT-IN SWAY CONTROL)**

We have combined the best features from our legendary Draw-Tite heavy-duty weight distributing kits & friction sway control to create Pro Series SC. From the proven Draw-Tite style head and adjustment system to the new innovative adjustable clamp on brackets with built-in sway control, the new Pro Series SC takes the integrated friction sway control concept to the next level. Unlike competitive units that don't provide enough friction to make much (if any) difference in sway resistance, our new Pro Series SC actually works to resist sway in all weather conditions! Best of all this system is fast to install, and affordable to all.

- Kits are available in 750/1100/1400 lbs.
- Well known, easily adjustable head using the proven Draw-Tite style serrated washer system
- Raised hitch ball platform
- New clamp on side brackets & adjustable pad hangers allow placement on the trailer frame without moving the gas bottles or batteries
- Integrated friction sway control - automotive friction material (used in vehicle brakes) has consistent, high friction control in all weather conditions
- Fast spring bar installation and removal after initial set-up
- Includes shank 63970
- 5 Year Limited Warranty

SWAY CONTROLS

- Used to reduce trailer sway and improve handling in adverse towing conditions
- Sway control units dampen trailer sway caused by crosswinds and traffic
- Both friction and dual cam designs improve stability and increase towing safety

Dual Cam **HP**™

DUAL CAM HIGH PERFORMANCE SWAY CONTROL

- Integrated Cams into the Spring Bars Reduce Noise
- No U-bolts to Conflict with Bottle Racks or other A-frame mounted items
- Specific Attachment Reference Points Provided
- Simple, Easy Adjustment of Centerline
- Years of Extensive Field Testing
- Black Powder Coat Finish

Part No.	Qty.	Description	Price
26102*	1	Dual Cam High Performance Sway Control	

DUAL CAM SWAY CONTROLS

- Patented Cam design
- Fully automatic and self-centering
- Attaches directly to round or trunnion spring bars
- Bolts-on for easy installation
- Black powder coat finish

Part No.	Qty.	Description	Price
26000*	1	Dual Cam Sway Control Fits 4" & 5" Trailer Frames	
26001*	1	Dual Cam Sway Control Fits 6" Trailer Frames	
58091	2	10" U-Bolts Only (2 per Pkg)	

* Sway controls are to be used with Class III & IV Hitches only. Do not use on Class I Sportframe or Class II Frame Hitches. Cannot be used with surge brakes.

FRICTION SWAY CONTROLS

- Easy installation no complicated adjustments or attachments
- Friction adjustment for multiple towing situations
- Easy to hook-up
- For use with all Class III & IV Hitches
- Can be used on left and right side of trailer

Part No.	Qty.	Description	Price
3400	1	Sway Control Assembly and Fasteners - (Boxed)	
40660	1	Value Sway Control - (Boxed)	
3442	1	Weld-On Sway Control Adapter	
3443	1 Disp Pkg	Replacement Sway Control Ball 1 1/4" x 5/8"	

NOTE: Do not use on Class I Sportframe Hitches. Cannot be used with surge brakes. For trailers exceeding 26' use two friction sway controls or dual cam sway control

LEFT HAND ADAPTER FOR ROUND BAR WEIGHT-DISTRIBUTING HITCH HEADS

- Friction sway control applications when trailer components obstruct right-hand sway control attachment
- Easy bolt-on installation
- Bulk packaged
- Black powder coat finish

Part No.	Qty.	Description	Price
3475	1	Bolt-On Sway Control Adapter for Round Bar Heads (Left Side)	

Cannot be used with surge brakes. Will not fit Trunnion Bar or Round Bar weld-together.

BOLT-ON SWAY CONTROL ADAPTERS

- Bulk packaged
- Black powder coat finish

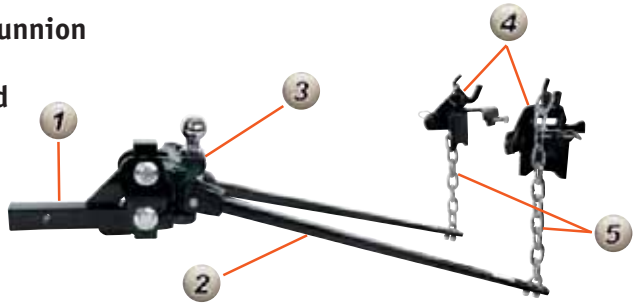

Part No.	Qty.	Description	Price
26003	1	Sway Control Adapter Bracket for Use With Class III & IV 2" Sq. Ball Mounts	
26005	1	Sway Control Adapter Bracket for Use With Class II 1 1/2" Sq. Drawbars Only	

NOTE: 26005 can not be used with Sportframe Drawbars. Ball platform does not prevent adapter from turning during tightening.

C

CURT Weight Distribution Hitches:

- Heavy duty Round Bar style and Trunnion style Weight Distribution Hitches
- Heavy duty adjustable formed head
- 2" x 2" adjustable hitch bar
- Forged solid steel spring bars
- Hook up brackets
- Durable powder coat finish resists rust & corrosion

What is included with a Weight Distribution Hitch

- 1 Adjustable Weight Distribution Shank
- 2 Spring Bars
- 3 Adjustable Ball Mount
- 4 Hook-up Brackets
- 5 Hook-up Chains
- 6 Pin & Clip included

Note: Weight Distribution Hitches **DO NOT** include hitch ball
Recommend 2 5/16" A-6 or 2" A-90 Trailer Ball
See page 52

THE FUNCTION OF A WEIGHT DISTRIBUTION HITCH

Provides better control of your vehicle and trailer by applying leverage across the trailer tongue and tow vehicle for heavier loads to be distributed more evenly on the trailer wheels and tow vehicle. This even distribution allows for a more stable ride and better control for braking and steering.

Round Bar Weight Distribution Hitch

Part #	Description	Max tongue wt.	Max GTW
CU17000	Round Bar bolt-together wt. dist. kit shank included, 12" hitch bar	600	10,000
CU17001	Round Bar bolt-together wt. dist. kit shank included, 12" hitch bar	800	10,000
CU 17002	Round Bar bolt-together wt. dist. kit shank included, 12" hitch bar	1,000	10,000

Trunnion Style Weight Distribution Hitch

Part #	Description	Max tongue wt.	Max GTW
CU7300	Trunnion Bar bolt-together wt. dist. kit shank included, 12" hitch bar	600	10,000
CU17301	Trunnion Bar bolt-together wt. dist. kit shank included, 12" hitch bar	800	10,000
CU 17302	Trunnion Bar bolt-together wt. dist. kit shank included, 12" hitch bar	1,000	10,000

Sway Control

Reduces the lateral movements of the trailer caused by the wind

Part # Description

CU17200	Sway Control Kit Includes: 1) Sway control unit 2) Trailer mounted attachment ball w/hardware 3) Hitch mounted attachment ball (A-93) 4) Weld-on tab to adapt for left-hand use or for use without weight distribution hitch 5) Mount reinforcement plate 6) Attachment clips
CU A-93	Sway control hitch ball
CU 17201	Trailer mounted attachment ball

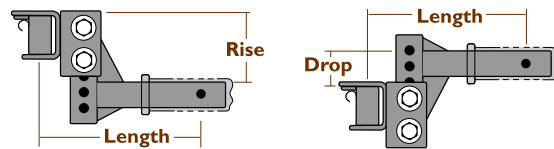

Weight Distribution Replacement Parts

Part #	Description	Length	Drop	Rise
1 ADJUSTABLE WEIGHT DISTRIBUTION SHANKS				
CU17100	Bolt-together adjustable shank	12"	2"	6"
CU17102	Bolt-together adjustable shank	14"	2"	6"
CU17103	Bolt-together adjustable shank	16"	2"	6"
CU17120	Bolt-together adjustable shank	12"	5.625"	8.875"
CU17121	Bolt-together adjustable shank	14"	6"	10.25"
CU17122	Bolt-together adjustable shank	16"	6"	10.25"
CU17123	Bolt-together adjustable shank	9"	7"	10.5"
CU17124	Bolt-together adjustable shank	11"	8.75"	0
CU17125	Bolt-together adjustable shank	10"	14.5"	0

Make sure to have the correct **LENGTH**, **RISE** and **DROP** required when selecting the proper shank for your weight distribution hitch. Use the diagram to the right to help you.

Selecting the Right Ball Mount

INCORRECT

Trailer Not Level

For safe, comfortable towing, the trailer should always be set up to tow on a level plane.

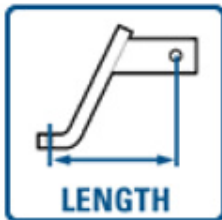

CORRECT

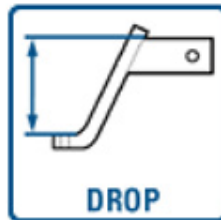

Trailer Level

Sometimes a trailer's tongue is higher or lower than the ball mount on the vehicle, and a ball mount with a "rise" or a "drop" is required to level the trailer.

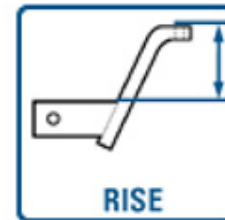

Ball Mount Measurements

Distance from the center of the ball hole to the center of the pin hole

Distance from the top of the shank to the top of the ball platform

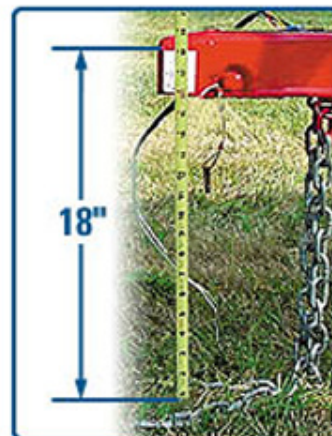

Distance from the top of the shank to the top of the ball platform

C

Measuring For the Proper Ball Mount

1. Measure from the ground to the top of the hitch.

2. Measure from the ground to the (inside) top of the trailer coupler, when level.

3. Subtract the height of the hitch ball (most are 2½" - 3" high) from coupler measurement.

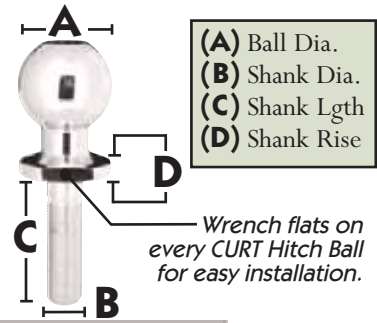

4. An 8" drop is needed to make the trailer level.

THE DIFFERENCE IN THE TWO MEASUREMENTS IS THE AMOUNT OF BALL MOUNT "RISE" OR "DROP" REQUIRED.

Information provided by Cequent Towing Products

CURT Trailer Balls Feature:

- Durable, attractive nickel chrome or stainless steel finish
- Fine threads for more holding strength
- Meets U.S. V-5 specifications
- Tested for safety

Switch Ball™

DESIGNED FOR SAFETY AND TOP PERFORMANCE

Slide on. Twist. Ready to Tow!

- No tools required.
- No attachment pin to remove.
- More time for recreation, less time in preparation.

- Constructed from premium grade steel with nickel-chrome plating for long life.
- Switch~Ball™ is guaranteed for life against defects in manufacturing.
- Switch~Ball™ complies with National Standard SAE-J684 and V-5 Regulations for conversion ball sets.
- The exclusive 'J' Groove design ensures with the ball installed on the shank and engaged by a coupler, the hitching system is secure and has been proven safe through independent testing.
- Designed so the weight bearing capacity is resting on the shank taking the stress away from the ball freeing the coupler from friction and binding, providing smoother and safer towing.
- US Patent #5,169,168 Canadian Patent #1,325,445.

HOW TO CALCULATE BALL MOUNT DROP to determine what size drop or rise needed for your ball mount, level your trailer and calculate the following:

- A: The distance from the ground to the top ID of the receiver tube opening.
 - B: The distance from the ground to the bottom of the trailer coupler.
 - C: The difference from both measurements will determine the size of drop or rise you need.
- $A - B = C$

CUD-18

Class 1 / Class 2 Ball Mounts

- Fits 1 1/4" x 1 1/4" receiver tubes
- Solid tube

ANDERSEN MFG ALUMISTINGER BALL MOUNT

See previous page for part numbers

- * Available in a 2", 4", 6", 8" and 10" drop/rise
- * 1" Ball Hole - 8,000 lb. GVWRm 800TW * Aircraft aluminum alloy which is 30% stronger than steel weight-for-weight! * Lightest and strongest ball mount on the market! * NO paint - NO rust - FOREVER! * Fits a standard 2" receiver! * Fully tested and verified by an independent lab for a V-5 certification * A continuous shine that will last a lifetime!

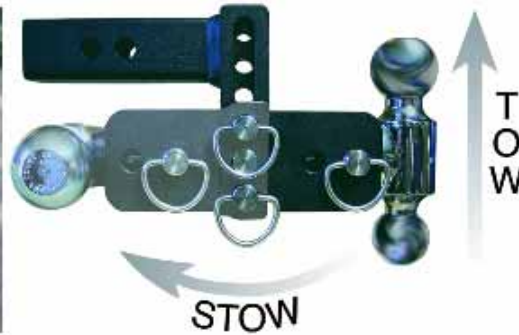

RH3310

All Rapid Hitch sizes have a 10,000 lb. GTWR and 1,500 lb. tongue weight - limited by ball capacity.

Standard double ball features 2" and 2 5/16" balls.
 3 Models available: the SUV 3 1/2" drop/rise, the 5 1/2" drop/rise, and the 10" drop.
 The standard Rapid Hitch has 11" over-all vertical adjustment, 5 1/2" rise or drop.
 Fully tested and certified by an independent lab.
 Fits a 2" standard receiver hitch.
 Many optional balls available including:
 1 7/8" x 2" combo
 1 7/8" single ball
 2" single ball
 2 5/16" single ball

AUTOMATIC TRANSMISSION COOLERS

- Protects Automatic Transmissions in stressful driving conditions
- Easy Do-It-Yourself instructions
- No special tools required
- No cutting of transmission oil lines when transmission line fitting fits are used
- Quick Connect Fittings and Hardware
- Standard and High-Performance Designs Available

Engines and transmissions in today's cars, trucks and sport utility vehicles have been downsized for economy and fuel efficiency and must work harder than ever before. **9 Out of every 10 transmission failures are caused by overheating.** Automatic transmission coolers can increase transmission life by decreasing transmission oil temperature. **Every 20° drop in temperature doubles transmission oil expectancy life.**

TRANSMISSION LINE FITTING KITS

- Kits for Most Popular Applications
- Fittings Thread Directly to Fluid Reservoir on Radiator
- Prevents the Need to Cut Transmission Oil Lines

Part No.	Hayden Model No.	Description	Case Qty.	Lot	Price
4681	250	Quick Connect Coupler. Use With $\frac{3}{16}$ " Factory Cooler Fittings Male and Female - No Need to Cut the Line (Included in Kits 4670 Thru 4677)	1	24	
4683	252	Ford Transmission Line Fitting Kit for Use on 1983 & Later Model Ford, Mazda, Mercury and Lincoln Models With Snap-in, Deep Thread or $\frac{3}{8}$ " NPT Fittings	1	24	
4891	390	1991-04 GM & 1987 & Earlier Model Jeeps With $\frac{3}{8}$ " - 18 Inverted Flare Fittings	1	24	
4892	391	1988 and Later Model Jeeps With $\frac{3}{8}$ " - 18 S.A.E 45° Flare Fittings.	1	24	
4893	392	1994-99 Dodge Trucks and Vans and 1988 and Later Model Jeeps With Quick Disconnect Fittings	1	24	
6441	394	1983 and Later Ford Cars & Trucks, $\frac{1}{2}$ " - 20 Inverted Flare, Recessed Thread	1	24	
6442	395	1987 and Later Ford Trucks, $\frac{3}{8}$ " - 18 Inverted Flare, Recessed Thread	1	24	

TRANSMISSION COOLER HOSE

Part No.	Description	Qty.	Price
3132	Transmission Oil Cooler Hose, $\frac{1}{2}$ " I.D., 25' Long	1	
4682	Transmission Oil Cooler Hose, $\frac{1}{2}$ " I.D., 4 1/2' Long	1	

QUICK CONNECT MOUNTING KIT

- Secures Transmission Cooler to Vehicle Radiator

Part No.	Description	Qty.	Price
4680	Quick Connect Mounting Kit, Includes: 4 Nylon Mounting Rods, Locking Nuts & Rubber Pads.	1	

TRANSMISSION COOLERS FITTINGS

KK370SB

ASSEMBLE REQUIRED AND SHIPPING CHARGES MAY APPLY

KarKaddy3 model KK370SB will tow almost any vehicle without difficult, time consuming adjustments to axles or ramps. This means no bolts to tighten and no heavy components to reposition.

Attached "SURE-GRIP" Low Profile Loading Ramps and Platforms. Formed and punched traction holes eliminate areas where dirt and moisture can cause corrosion problems.

Make trouble-free turns with Auto-Steer cornering.

Tilt-bed frame with positive automatic relatch locking mechanism for fast, easy loading.

Sealed bearing hub is so trouble-free, we back it with a 3 YEAR Unlimited Warranty NEVER REPACK WHEEL BEARINGS AGAIN.

Surge brakes included

Computerized factory balanced 14" wheels and radial tires.

Full coverage polyethylene fenders with protected, sealed lights.

Polyester basket style tie-down straps are safe easy to handle and are secured at three points. Towed vehicle rides on its own suspension.

You need only one hand to operate the wheel tie-down winches.

Attached safety tie-down chains for towed vehicle.

The KK370SB is standard with a hydraulic surge brake system.

Ideal for RV owners who need an economical, dependable auto transport.

Will accommodate front wheel drive standard or automatic transmission vehicles.

Less than 100 lbs. tongue weight, when loaded, for improved ride and handling of tow vehicles. Ideal for towing by mini motorhomes.

Tilt-bed frame for fast, easy loading. Positive locking mechanism on tilt-bed does not require a separate loose pin.

Attached loading ramps. No ramps to lift or store.

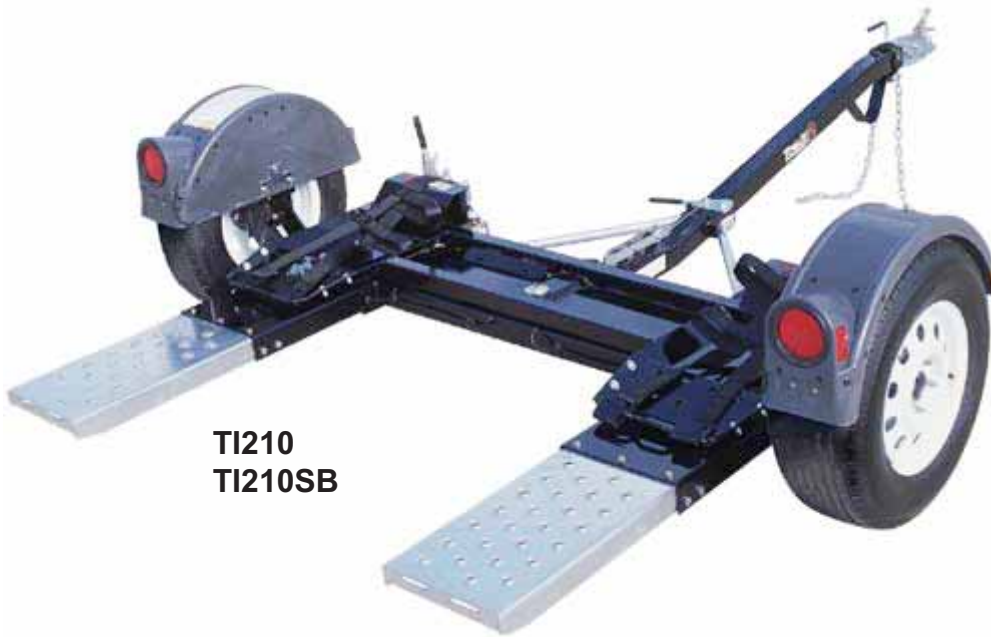

Auto-Steer cornering for problem-free turns.

Lower center of gravity for towed vehicle improves stability

Dual safety chains for towed vehicle are standard.

C

KAR KADDY 3

TI210
TI210SB

ASSEMBLE REQUIRED AND SHIPPING CHARGES MAY APPLY

Where quality and economy meet. An economical alternative to the KarKaddy3™. 8 ft. configuration only.

Top swivel platform.

Low profile ramps.

Sealed bearing hub is so trouble-free, we back it with a 3 YEAR Unlimited Warranty
NEVER REPACK WHEEL BEARINGS AGAIN.

Available with or without surge brakes.

TI210 - without brakes.

TI210SB - with brakes.

Does not include freight or dealer assembly / prep.

KK460SS - 8.5' Folding Kar Kaddy

ASSEMBLE REQUIRED AND SHIPPING CHARGES MAY APPLY

The Kar Kaddy™ SS will tow almost any vehicle, large or small, without difficult, time consuming adjustments to axles or ramps. This means no bolts to tighten and no heavy components to reposition.

Standard Features:

Hydraulic surge brake system provides safe, controlled stopping.
A durable galvanized finish with custom chrome wheels and raised white letter radial tires make this tow dolly one you'll be proud to use for years to come.
Will accommodate front wheel drive standard or automatic transmission vehicles.
Less than 100 lbs. tongue weight, when loaded, for improved ride and handling of tow vehicles. Ideal for towing by mini motorhomes.
Trouble free sealed bearing hub with 3-year unlimited warranty.

Tilt-bed frame provides fast, easy loading. Positive locking mechanism on tilt-bed does not require a separate loose pin.
Attached "SURE-GRIP" loading ramps provide a safe loading traction.
Auto-steer cornering makes turns problem free.
Lower center of gravity for towed vehicle improves stability.
Dual safety chains for towed vehicle are standard.
Wheel jack to help move the dolly when not loaded.
LED lights give more illumination and longer life.

DOES NOT INCLUDE FREIGHT OR DEALER ASSEMBLY/PREP

KAR KADDY

KAR KADDY 3

Unfolded KarKaddy™ SS length is 133"
Many RV park lots are not deep enough
to accommodate your motorhome and
tow dolly.

A folded KarKaddy™ SS length is 67"
By using only half the space, you can
fit both your motorhome and tow dolly
comfortably in almost any RV lot. Or
you can store your tow dolly in front of
your car in your garage at home.

GT300

Features:

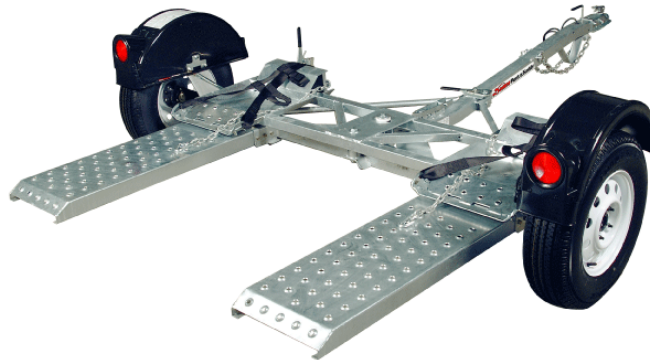

- Heavy-Duty Frame
- Pivoting Fifth-Wheel Design
- Attached Loading Ramps
- Ratchet Tie-Down Winches
- Transport Vehicle Safety Chains
- Synthetic Full Fenders
- Tilting Ramps
- Rubber Mounted Lights
- Maintenance Free Hub & Spindles
- Factory Balanced Radial Tires
- 2" Ball Coupler

DEMCO

- Sealed Hubs
- Poly Fenders
- Galvanized
- Torsion Axle
- 3500 lb. Capacity

Towed Tread Width of 42" Min & 74" Max

**Available with Optional Surge Brakes at Extra Cost*

ASSEMBLE REQUIRED AND SHIPPING CHARGES MAY APPLY

Never repack wheel bearings again!
All units feature the maintenance free hub with sealed bearings.

3-Point polyester bolt-on tie-down straps

Zinc plated ratchet winches.
30% more gripping power than conventional ratchets.

3-Point polyester bolt-on tie-down straps with easy to attach J-hooks.

Tilt-bed latch in the loading position.

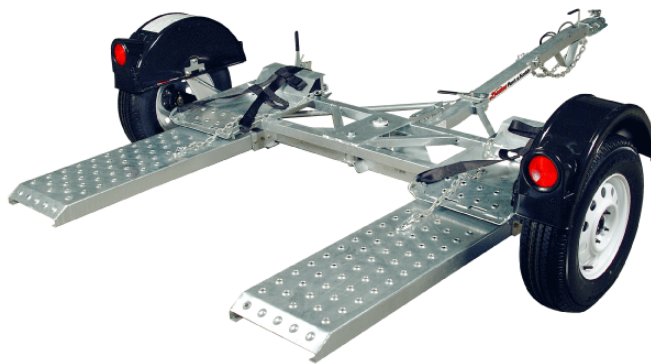

Tilt-bed latch in the locked position.
